Compression Springs

Description:

These set screws can be used as adjustable spring stops. They are available for all customary spring sizes from $\varnothing 10$ to $\varnothing 40$. The set screws are suitable for springs 241.14. to .17.

Their use offers the following advantages:

- Adjustable spring tension from under the bottom bolster, without any dismantling.
- Exchange of springs without dismantling.
- Through-holes instead of blind holes for spring accommodation.

241.00.1. Pipe plug (for compression spring adjustment)
